

### **Invitation to Harvest Lakes Resident Association**

Who are we? We are people like you who live in Harvest Lakes and want to make our neighbourhood a great place to live.

When the developer Landcorp initiated the formation of a resident association late in 1994, we were pleased to become involved because we could see that banding together would be an effective way of achieving our aims.

Now the Association is incorporated and with the assistance of Landcorp and Creating Communities, we have organised many successful community events. You may have attended the Easter Feast event, a Movie evening or last year Carols by Candlelight. Or perhaps you came along to a special welcoming event to mark the completion of a new stage in the Estate. Our community news letter "*Harvest Cuttings*" comes out every three months and is widely distributed by us and you may have obtained more information about our location and the people who live here from that.

We are now inviting you and your family to make a difference by becoming involved in your local Resident Association. We meet every last Tuesday in the month from 7.00pm- 8.30pm in the Community Centre next to Harmony Primary School.

Do you have special training or skills that you would like to share with your neighbours? Is there a particular club you would like to see established here? They bound to be others who share your particular enthusiasm. Perhaps you find yourself saying: Why don't they ....? These wishes can come true if we all work together.

We currently have a burgeoning membership in our Resident Association and are planning several specialised committees to focus on things like: *Social and Sporting events, links with the City of Cockburn, Resident Concerns, Sustainability* and so on. **Here is your chance to get involved and make a difference!**

#### **I would like to join the Harvest Lake Resident Association**
